## PROFESSIONAL EXPERIENCE

### BUSINESS ANALYST | CAPGEMINI, PUNE | JAN 2022 – PRESENT

Worked for **HSBC Bank**, leading **CBPR+ SWIFT message mapping** for **MT** and **MX** message processing in **ISO20022**. Ensured seamless payment flows across **56 countries** by gathering and documenting business requirements, while ensuring compliance and timely project delivery.

- **Cross-Functional Collaboration:** Acted as the primary liaison between business, IT, and cross-functional teams, ensuring alignment of goals and clear communication during the project lifecycle.
- **Agile Integration:** Actively contributed to **Agile processes**, including sprint planning, daily stand-ups, backlog grooming, and retrospectives, ensuring the timely delivery of user stories and project milestones.
- **Business Documentation:** Produced comprehensive business documentation, including **process flows**, **user stories**, and **requirement specifications**, ensuring clarity, traceability, and effective decision-making.
- **UAT & Defect Management:** Coordinated with **IT**, **QA**, and **business teams** to execute **User Acceptance Testing (UAT)**, identify defects, and implement corrective actions to improve project quality and outcomes.
- **Tools & Automation:** Utilized tools like **JIRA**, **Confluence**, and **DevOps** for managing project tasks, tracking progress, and automating workflows, ensuring efficient project delivery.

## **SOFTWARE DEVELOPER INTERN | CAPGEMINI, PUNE | OCT 2021– DEC 2021**

*Completed hands-on training and led a team of four developers to design and develop an online food delivery application, focusing on user-friendly features and efficient ordering processes.*

- **Development:** Led the design and development of the application, ensuring a user-friendly interface and seamless ordering experience.
- **Testing:** Managed the testing process to ensure high-quality, bug-free functionality across all features.
- **CI/CD Implementation:** Automated deployment using Jenkins, improving deployment speed, consistency, and reliability.
- **Version Control:** Utilized Git for version control, ensuring smooth collaboration, maintaining code consistency, and optimizing workflows.

## **Education:**

### **BACHELOR'S OF ENGINEERING: COMPUTER SCIENCE'21**

RMD SINHGAD SCHOOL OF ENGINEERING, PUNE
